2021 GRADUATION MESSAGE

My sincere and warm felicitations to you my dear graduates, parents, teachers, school administrators, and partners in education!

Seriously, the Department of Education has experienced formidable setbacks at the beginning of SY 2020- 2021 that catapulted many issues and concerns which affected our schools, teachers, parents, and learners. We confronted unexpected changes that we have to bravely blend in, in order to triumph education! Now, we continue to thrive towards attaining quality education despite the adversities and complexities caused by the pandemic we are experiencing that vindicated our strong will and faith.

Our theme for this End- of- School Year rites, Strengthening the Quality of Education Amid the Covid- 19 Pandemic meaningfully manifests that you incessantly remain strong and this is proven by your success as you are declared graduates of this school year. You may not have the chance to march with pride, yet instill in your hearts and minds that you have indelibly become part of the history whose sacrifices led towards discovering the light of hope.

My dear graduates, you are living witnesses of the changed systems that paved the way to innovations and development. We hope, this newness will lead to better ways. However, despite the rapid changes of the accustomed practices, the love of our department for you remains. You are the light of the country who will marry the good stories of today and of yesterday towards a blazing and victorious future.

You are blessed to be part of the new generation. Take your ample chances to prove to yourself and to the society that you can soar higher and reach your ambitions. Seize these as opportunities for you to grasp your success and become a significant individual. Always remember that victory comes to those who are not limited by their limitations. Let God arise

and do the process. Believe that whatever road you may take you will never fail.

To our parents, teachers, and school administrators accept my sincere gratefulness for your genuine support as we all tread these radical changes.

Your sacrifices honed and gave strength to your beloved children. Thank you! I also express my heartfelt thanks to the Local Government Officials, private sectors, and other organizations. We acknowledge your overwhelming contributions to our mission and vision for the love of our Butuanon learners. On behalf of DepEd Butuan, I extend my profound gratitude.

To the graduates, be optimistic and continue to pray for your esteemed success!
